AMUSEMENT NOTES.

"A Butterfly on the Wheel" Coming to Barre Next Tuesday.

No play of recent years can claim anywhere near the dramatic perfection that "A Butterfly on the Wheel," is endowed with, this fact being admitted by all the dramatic critics and is the universal opinion of all those who had the good fortune to witness this powerful play. Written by Edward G. Hemmerle, who is a king's counsel of considerable note, the trial scene, which is the big act of the play, is one of the most realistic, convincing and gripping things ever seen on the stage.

This divorce trial in an English court, of a woman who has been unwittingly placed in a compromising position by a former lover, entirely inexperienced and unaware of the intrigue which has so involved her, is being tried by her husband for absolute divorce. The not that the prosecution counsel has woven around her, while, as the audience knows, is purely circumstantial, is so sound and logical, from a legal standpoint, that did the audience not know she was entirely innocent of any intent, they would be absolutely convinced of its logic and her guilt. The entire Shubert production will be seen here on Tuesday, March 10th.—Adv.

"The Gamblers" To-night.

"The Gamblers" will be presented at the Barre opera house to-night by the Klark-Urban company. Their performance of "Alias Jimmy Valentine," on Monday night was an exceptional dramatic performance, and "The Gamblers" at popular prices is an opportunity no one should miss.—Adv.

ECZEMA DISFIGURED BABY TERRIBLY

Body All Broken Out in Water Blisters. Itched So Had to Muffle Hands. Used Cuticura Soap and Ointment. Never Troubled Since.

Ridgely, Conn. — "My baby was cross and restless and fretted night and day. One morning I discovered that her body was all broken out in small water blisters and I was told she had the eczema the worst way. It looked like a piece of raw meat. It itched so badly that we had to muffle the baby's hands to protect it spreading all over her face. It certainly disfigured her terribly and she could not rest at night. Her clothing was very irritating to the body and when it was removed her body was raw. We had her treated for about two weeks and it spread all over her body, face and head and seemed to grow worse all the time.

"I took good warm water and Cuticura Soap and lathered it all over her and allowed it to dry on and then when it was thoroughly dry I applied the Cuticura Ointment. In about a week I could see a big change and in three weeks she never looked so healthy as she ever had eczema and she never has been troubled since." (Signed) Mrs. George Coe, Nov. 20, 1912.

A single cake of Cuticura Soap (25c) and box of Cuticura Ointment (50c) are often sufficient when all else has failed. Sold throughout the world. Sample of each mailed free, with 25c Skin Book. Address post-card "Cuticura, Dept. T, Boston."

Men who shave and shampoo with Cuticura Soap will find it best for skin and scalp.

LETTERS TO THE EDITOR

THE FARMHAND'S SIDE.

Tells Why It Is Difficult to Get Good Help.

Editor, Barre Daily Times: I would like to say a few words in regard to hired help on the farm. It seems to be a difficult problem to find suitable farm help, for reasons which I will explain.

First, if it is a married man, who is hired by the month or year, his wages will average from \$25 to \$35 per month and house rent. The rent of those houses would not bring more than \$2 to \$4 per month, in the condition and location they are in. Now, for that \$25 or \$35, they work from 26 to 28 days.

Sundays, of course, he has some privileges. He is expected to get up as early as usual, which is 4:30 or 5 o'clock, and work two hours before breakfast. And then, after breakfast, he has another chance to work until 10:30 or 11 o'clock, doing forenoon chores. Then he has a rest until 3:30, providing there are no pigpens to clean out. Then comes night chores, which keeps him busy until 7 or 7:30 p. m.

If the hired man is gone an afternoon or sick, but is around to do chores in either case, there are farmers small enough to take out the full half day, without so much as a "thank you" for doing the chores, which takes nearly an other half.

And still they wonder why they can't get good help and keep it. At \$35 a month, a man gets less than nine cents an hour to support a family on. Everything he has from the farm has to be paid for, even down to a quart of milk. Now I should like to have someone explain how a man with a family can live on those wages and pay his bills, with the high cost of living at the present time.

The farmer does, and has for some time, got for his produce the highest prices since war time. The hired man on the farm does the hardest and sometimes the filthiest kind of work that is required of any kind of labor. Farmers do not object to paying from \$1.75 to \$2.50 and dinner for day help, for nine hours a day, but they don't think it necessary to pay the man that they have the year-round enough so that he can live comfortably.

Of course they say, "We give you full time through bad weather," but the hired man never cares for a rainy day, because he knows there is always some dirty job to be done. No matter how tired the hired man gets, he has to be there just as early every morning and stay until the last thing at night. He has no time for church. In fact, he has no time to be with his own family. They expect him to devote his whole time to their interest.

Ought a man to work 32 Sundays in the year for nothing?

An Experienced Farmhand.

Good Time Planned for Woman's Club Convention in Chicago, June 9-19.

Chicago, March 4.—Mrs. Frederick Dow, state president of Illinois, is planning to keep open house during the biennial convention of the General Federation of Women's Clubs, June 9-19, at hotel La Salle, that, as head of the hostess state, she may be of all possible assistance to the various delegations which have their headquarters at that hotel.

On Saturday, June 13, with the assistance of past state presidents, she will hold a reception from 2 to 4 o'clock for Illinois club women from all parts of the country. This will be one of the attractive social features of the convention.

Other state presidents are also planning for dinners and receptions.

The press committee, of which Mrs. Grace Julian Clarke of Indianapolis is general federation chairman, will hold a press luncheon, followed by a conference, at 12:30 Saturday, June 13, at one of the downtown hotels. There will be short, crisp, pointed speeches by members active in press work throughout the country, with addresses by a leading newspaper man and a leading newspaper woman of Chicago. This will be followed by a general discussion presenting the how, where and why of publicity work. Some of the topics discussed will be "The Future of the Club Department in the Newspaper," "Why Is the Press Committee," and "Holding Out Inducements."

After the seven working days of the convention there will be a sociological pilgrimage under the direction of Mrs. Willis O. Nance of Chicago, chairman of the excursion committee. This will include an automobile trip over the park and boulevard system, with visits to Hull house, Fellowship house, Gadshill settlement and numerous public playgrounds, where the school children of the city will furnish entertainment for the guests in pageant and otherwise. Tea will be served at various stopping places and each little group of women will be conducted by a member of the excursion committee, who will be ready to explain the different points of interest visited. There will also be excursions to the stores and shops where arts, crafts and textile exhibits will be seen and the visits to the art institute will be under the direction of competent guides.

The local biennial board is never for a moment forgetting that it has made comfort its slogan and there will be maintained in each hotel a room in which will be found a member of the hotels committee, the bureau of information, the press, reserves, registration and local board ticket committees ready to answer all questions and do everything possible for the comfort and convenience of the guests. Arrangements have been made whereby state headquarters will be located free of charge in the hotel to which a delegation is assigned.

OUR HOME WOMEN HAVE BEAUTIFUL HAIR

Next time you go to the theatre or to the "movies," just notice, if you please, how many of our home ladies have beautiful hair—glossy, lustrous, and well-dressed. Then, if you will pick out five or ten of those whose hair seems to be particularly pretty and will ask them what they use on it, we feel sure that at least more than half of them will say "Harmony Hair Beautifier." DARKEN GRAY HAIR, LOOK YOUNG, PRETTY

Grandma's Recipe of Sage Tea and Sulphur Darkens So Naturally That Nobody Can Tell.

Almost everyone knows that Sage Tea and Sulphur, properly compounded, brings back the natural color and luster to the hair when faded, streaked or gray; also ends dandruff, itching scalp and stops falling hair. Years ago the only way to get this mixture was to make it at home, which is messy and troublesome. Nowadays, by asking at any drug store for "Wyeth's Sage and Sulphur Hair Remedy," you will get a large bottle of this famous old recipe for about 50 cents.

Don't stay gray! Try it! No one can possibly tell that you darkened your hair, as it does it so naturally and evenly. You dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, and after another application or two, your hair becomes beautifully dark, thick and glossy.—Adv.
